THE FAT JACK SYSTEM

Follow Fat Jack's proven system of sports gambling and start winning. The following guide will help explain exactly how to wager responsibly with maximum success.

Football Wagers

Guidelines for Success:

- Bet the same amount on every selection to help maintain consistency.
- Avoid betting different amounts and refrain from using a "rating/star" system for selections.
- While playing the "Opinions" is optional, Jack suggests wagering half of the amount typically played on football selections.

LINE RULES
IF THE LINE IS LESS THAN 2.5 POINTS OF FJ LINE - PLAY IT

IF THE LINE IS WORSE THAN 2.5 POINTS OF FJ LINE - PLAY HALF

Basketball Wagers

Guidelines for Success:

- Betting on basketball is a volatile practice that can lead to significant swings.
- Our hoops package prices reflect this reality, so if you need to take a break, please do so.
- It's essential not to place bets of varying amounts. We never provide "rate/star" selections.
- To start, wager half the amount you typically bet on a football selection.

NFL Pre-season, Horse Racing, Baseball and MMA

All of these selections are given as a BONUS to our members. Based on a player who usually wagers \$200 per football game, play \$50 on each selection. Remember that these selections are not taken into consideration when calculating the seasonal performance record. Play at your own risk.

Lines

Please be aware that all selections we send include a reference line as a guideline. These lines are based on the current sportsbook odds at the time of sending and are dispatched promptly to offer the best available lines. However, it is ultimately the client's responsibility to secure the best possible line when placing their bets.

How do I receive my picks?

You can now access your picks 24/7 on the new site through your personal account portal. We have enhanced the mobile experience to make viewing your selections even easier. Expect to receive daily emails from Jack with your selections. To ensure you receive all communications, please add our email address to your "approved" senders list.

Grading of Games

Our game grading process is based on the available lines leading up to kickoff/tip-off. However, please note that the exact line sent out with selections may not always match the line you receive. Selections are often sent out days before the game, and it is important to anticipate line movements, especially as game time approaches.
